Re: MUR 4853

Dear Ms. Boyd:

This is in response to a letter from F. Andrew Turley dated November 9, 1998 and received in our office on November 13, 1998 regarding the above referenced matter. We look forward to submitting a response indicating that no action by the Commission is warranted in this matter. We hereby request a one week extension of time, to December 7, 1998 to respond to the letter.

This request is based on the following demonstration of good cause:

1. Our response may require copies of certain official records on file in the Orange County Registrar/Recorder's Office. Appropriate copies of such documents cannot be obtained in time to meet the Commission's initial deadline.
2. The Committee is in the process of retaining counsel to advise regarding the Committee's response. A brief extension of time is necessary to permit counsel to review the file in this matter and assist in preparing a response.
3. The Thanksgiving holiday reduces the business days available to the Committee to respond.

We would appreciate your early favorable response to this request
You may reach the undersigned at 818/504-0323 or by fax at 818/504-0625
Thank you in advance for your courtesy and cooperation

Sincerely,

Pat Neal
